### DEFENCE OF CANADA REGULATIONS.

#### LIGHTING REGULATIONS IN RESPECT TO DIM-OUT.

I THE UNDERSIGNED, William Crossley, Mainwaring, Chairman of the Advisory Council, Provincial Civilian Protection Committee, for the Province of British Columbia, pursuant to authority which has been granted to me, and in concurrence with Major-General G. R. Pearkes, V.C., C.B., D.S.O., M.C., General Officer Commanding-in-Chief, Pacific Command, do hereby rescind that portion of Lighting and Black-out Regulations, dated the 13th day of November, 1942, relating to Dim-out (being Regulations 25 to 38, inclusive, and the schedule attached thereto), and substitute therefor the following regulations:—

#### SCHEDULE OF AREAS.

Regulation 25. Henceforth there shall be two Dim-out Areas in the Province of British Columbia—Dim-out Area B and Dim-out Area C.

*Dim-out Area B.*—That portion of the Province of British Columbia which lies westerly of the following described line: Commencing at Sheringham Point; thence north-westerly in a straight line to Pachena (Marion) Lake (near Bamfield); thence northerly in a straight line to Sarita Lake; thence in a straight line to the mouth of the Nahmint River (Alberni Canal); thence in a straight line to the head of Muchalat Inlet; thence in a straight line to Sayward—all the aforementioned being on Vancouver Island; thence in a straight line to Port Neville; thence in a straight line to settlement of Rivers Inlet;

thence in a straight line to Ocean Falls, but excluding that settlement; thence in a straight line to Telegraph Point on the right bank of the Skeena River; thence in a straight line to the head of Work Channel; thence in a straight line to Wales Point on Wales Island; thence due north to intersect the International Boundary between British Columbia and Alaska.

All places and settlements hereinabove mentioned, together with any others through which the above-described lines pass are declared to lie within Area B.

*Dim-out Area C.*—All that portion of the Province of British Columbia (excepting Area B) lying to the west of the summit of the Cascade Mountains, as defined in the "Interpretation Act" of British Columbia, together with the villages of Hope and Terrace.

Regulation 26. *Effective Hours.*—All lighting restrictions hereinafter provided shall be applicable and observance thereof required at all times from one-half hour after sunset until one-half hour before sunrise each night from the first day of October to the thirtieth day of April, and from one hour after sunset until one hour before sunrise each night from the first day of May to the thirtieth day of September in any year.

#### DIM-OUT AREA B.

Regulation 27. Subject to exceptions hereinafter provided, during the hours specified in Regulation 26 hereof, illumination within Dim-out Area B shall be controlled as follows:—

(a.) *Advertising and Decorative Lighting.*—Illuminated signs and ornamental, decorative, and display lighting of every description which are located out-of-doors, and flood lighting which illuminates buildings or signs shall be extinguished.

(b.) *Upward Lighting.*—All light sources of every description shall be situated or shielded so that no direct rays from any light source are emitted above the horizontal out-of-doors. This also applies to street and highway lights.

(c.) *Outdoor Area Illumination.*—Illumination on any outdoor area shall not exceed one foot-candle at any point.

(d.) Subject to the exceptions hereinafter provided, during the hours specified in Regulation 26 hereof any light source which is directly visible from the sea, as hereinafter defined, shall be either extinguished or shielded so that it is no longer directly visible from the sea, in addition to the applicable restrictions provided in this regulation.

#### DIM-OUT AREA C.

Regulation 28. Subject to the exceptions hereinafter provided, during the hours specified in Regulation 26 hereof illumination within Dim-out Area C shall be controlled as follows:—

(a.) *Upward Lighting.*—Any electric incandescent illumination in excess of 100 watts capacity, and all other light sources producing equivalent light intensity, when located out-of-doors shall be shielded so that no direct rays from any light source are emitted above the horizontal. Accumulation of light sources located within or above any ten-foot square of outdoor ground area shall be deemed to be a single light source and if the aggregate intensity of such an illumination of light sources exceeds the limit expressed in the preceding sentence, then all such light sources shall be shielded. In addition, the maximum illumination permitted on any outdoor area shall not exceed five foot-candles at any point.

(b.) *Advertising and Decorative Lighting.*—Illuminated signs and ornamental, decorative, and display lighting of every description which are located out-of-doors, and flood lighting which illuminates buildings or signs shall be extinguished.

(c.) *Highway and Street Lights*.—All highway and street lights must be shielded so that each light source emits no more than ten per cent. of its total lamp lumens above the horizontal and must be controlled so that such light sources contribute no more than five foot-candles of illumination at any point upon the ground.

#### GENERAL PROVISIONS.

Regulation 29. *Exceptions*.—Certain exceptions from the foregoing restrictions are made as follows:—

(a.) *Industry, Safety, Health and Welfare*.—Variations from any of the restrictions of these regulations may be permitted by the written permission of the Chairman of the Advisory Council, Provincial Civilian Protection Committee, 650 Burrard Street, Vancouver, B.C., or person duly authorized by him, obtained in advance, but only when and to the extent required to achieve and maintain maximum industrial efficiency or reasonable safety of persons or property, or to maintain health and welfare, and only to the extent consistent with the requirements of military necessity as determined from time to time by the General Officer Commanding-in-Chief, Pacific Command. All permits presently in effect under the provisions of existing Lighting and Black-out Regulations within Dim-out Areas B or C established herein shall remain in effect subject to any alterations required by the provisions of these regulations.

(b.) *Interior Lighting*.—Upward light emitted out-of-doors from any light source shall be permitted if the light source is: (1) In any building and more than six feet from the nearest window or other opening in the wall of the building; or (2) at any location within the building used primarily as a residence, apartment, hotel, or residential club, if all direct rays emitted above the horizontal out-of-doors are shielded by any customary residential type of lamp-shade; but in either case no direct rays from any light source shall be emitted through any skylight, and all indoor light sources within Dim-out Area B shall be shielded so that they are not directly visible from the sea.

(c.) *Essential Outdoor Domestic Lighting*.—The use of porch and other essential domestic lighting is permitted; provided that (1) the wattage of each light source shall not exceed twenty-five watts, and, (2) that each such light source is so shielded that no light rays are directed above the horizontal. (Attention is drawn to Regulation 33 of these regulations.)

(d.) *Recreational Lighting*.—Outdoor area illumination up to a maximum of thirty foot-candles is permitted in any location more than three miles from the sea, as hereinafter defined, but only when and to the extent actually required and primarily used for sports or recreation and when otherwise in compliance with the applicable restrictions of Regulation 27 hereof.

(e.) *Vehicle Lights*.—All vehicle lights required by law are permitted; provided, however, that within Dim-out Area B, in areas visible from the sea as hereinafter defined, driving lamps shall be operated on the low or depressed beam. Authorized emergency vehicles on official missions are excepted from all the restrictions of these orders.

(f.) *Route and Destination Signs*.—Illuminated route and destination signs on public carrier vehicles are excepted from all the restrictions of these regulations.

(g.) *Traffic Signs and Signals*.—Illuminated signs and signals authorized by governmental authorities to control or direct traffic are excepted from all the foregoing restrictions; provided, however, that such signals are illuminated by electric lamps of not more than 100-watt capacity or the equivalent, and that the actual light sources illuminating such

signs are shielded to comply with Regulation 27 hereof.

(h.) *Highway Flares and Obstruction Lights*.—Fusees, or similar flares in an emergency, or so-called "bomb-type" flares and warning lanterns are exempted from all the foregoing restrictions, but only when and to the extent actually and immediately required to warn traffic of an obstruction.

(i.) *Navigation and Railroad Lights*.—Authorized lights necessary to facilitate air or water navigation, authorized railroad signal lights, and head-lights of railroad locomotives when in motion are excepted from all the restrictions of these regulations.

(j.) *Safe or Vault Lights*.—Henceforth it shall be permissible to burn a light of not greater intensity than twenty-five watts over a safe or vault, if shielded to prevent any light going above the horizontal, and provided that in Dim-out Area B such light is so shielded that it is not visible from the sea, as hereinafter defined.

Regulation 30. *Definitions*.—As used herein, the following words and phrases shall have the following meanings:—

Regulation 31. *Penalties*.—Any person violating any of the provisions hereof, or orders issued pursuant hereto, is subject to prosecution under the Defence of Canada Regulations and to the penalties provided thereby.

Regulation 32. *Black-out Regulations*.—These regulations apply only to dim-outs and shall have no effect upon existing or future laws or regulations governing black-outs.

Regulation 33. No person shall, between the hours specified in Regulation 26 hereof, cause or permit any light, illumination, sparks, or glare to emanate from inside any building or enclosure, or any outside light, illumination, sparks, or glare, whether in Dim-out Area B or Dim-out Area C, unless a person is constantly present with authority and the means to instantly extinguish or mask the light, illumination, sparks, or glare. The provisions of this regulation shall not apply to Regulation 29, subsection (j), of these regulations.
